

# Albuquerque Mountain Bike Association (AMBA)

# Outline

- 1. AMBA Overview
- 2. Board of Directors
- 3. Committees
- 4. Trails+ Grant
- 5. Q&A

## Overview

- AMBA was established in 2015, building off of the former group, Friends of the Outdoors (FOO).
- AMBA is an International Mountain Bike Association (IMBA) Chapter, as well as being a 501(c)3.
- There are roughly 300 registered members, with 1,450 associated members on Meet-Up.

# Overview

AMBA is a non-profit association whose mission is to create, enhance and preserve great trail experiences for mountain bikers in the greater Albuquerque area, and to create a bicycle friendly community through cycling awareness, safety, advocacy and promotion of bicycling for fun, fitness and transportation.

AMBA seeks to preserve, protect, and promote mountain bike access and diverse riding opportunities on NM's public and private lands through education, communication, and unified action.

## **Board of Directors**

Hannah Russert Mitch Steinberg Jeremy Peterson Carley Parriott Rachel Bobka Tami Taylor Carlos Matutes Zack Ratzlaff Jay Wulf Seth Bush

### Committees

Membership & Marketing Financial & Fundraising Strategies Technology Trail Development & Maintenance Education Events & Group Rides

## **Trails+ Grant - Overview**

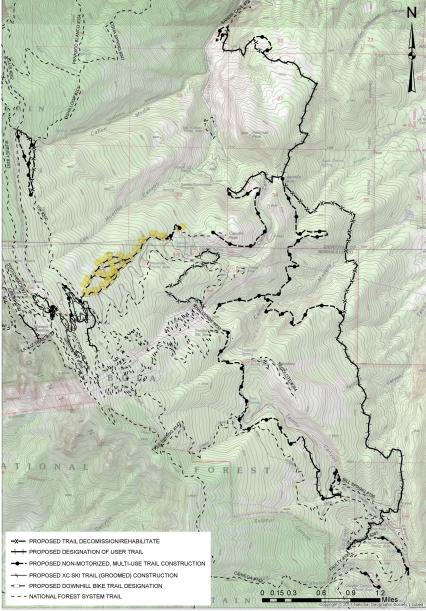

- This scalable project was scoped and approved in the USFS's April 2021 Sandia Trails Improvement Project
- Builds upon and improves the existing downhill designated mountain biking trails on the east side of the Sandia crest
- Utilizes a hybrid development approach, pairing machine and hand-built construction mechanisms, to create unrivaled progressive features, while maintaining the character and experience of the existing trails
  - Contractual agreements with both the USFS and Rocket Ramps are underway

## **Trails+ Grant - Result**

- The proposed project will:
  - Improve the safety of nearby multi-use trails by creating a direction-specific trail system (reducing the potential for hiker-biker collisions)
  - Increase access for downhill-oriented riders
  - Support sustainable trail use by mountain bikers of all levels
- The trail system will be composed of direction-specific, single-use trails purpose-built for downhill biking.
