Report of Work on the FOSM Project to Build a Buck and Rail Fence on Two Sides of Kiwanis Meadow, Monday, June 9, 2025

Sam Beard and Joelle Hertel

On Monday, June 9, TTYL/YCC (Talking Talons Youth Leadership/Youth Conservation Corps) and FOSM volunteers continued building the Kiwanis Meadow buck and rail fence. Manny Chavez, SRD Maintenance Supervisor) hauled the original assembled fence section from the FOSM Guard Station to Kiwanis Meadow. He also hauled away the debris from the old fence sections from the corner of the meadow adjacent to the South Crest Trail. A TTYL crew with Joelle Hertel trimmed aspen along the edge of Kiwanis Meadow Road and used the slash in the meadow to obliterate user trails. The crew also built a few more sections of the fence farther up the Kiwanis Cabin Road to the tall forest trees.

Sam Beard, Michael Arndt, and Sim Cook, FOSM members, completed the fence in the meadow corner by the South Crest Trail with a TTYL crew.

The TTYL/YCC crew members working today were Aidan Stewart, Crew Leader, Hans Martin, Lila Eaton, Evan Cooney-Martin, Jamie Medina-Soto, Rebecca Duggar, and Eli Iwanczyk.

Project photos are presented below.

Top – L to R: Michael Arndt and Sim Cook at the sections of the fence in the north corner of Kiwanis Meadow. Bottom – L to R: TTYL crew members Jamie Medina-Soto and Evin Cooney-Martin, and FOSM members Sim Cook and Michael Arndt at the last corner in this part of the fence. South Crest Trail is behind Sim and Michael. All photos by Sam Beard unless stated otherwise.

View from the last corner in the section of the fence adjacent to the South Crest Trail toward the end of the fence in the edge of the forest in the background. The interpretative sign on the left presents information about the meadow.

At the request of Canyon Young, SRD Trails and Wilderness Program Manager, the small aspens encroaching on the road were cut with loppers near the first curve in the road. The lower parts of these trees will be cut down to the ground with a chain saw later.
