Cibola Trail Rangers
Good Morning everyone!

Thanks for all the hard work out on the trails. The Monday FOSM CREW, lead by Byron Garner this week, cleared 10KN up to Survey Trail and found that the Survey Trail tree that was left for another time had been removed by our "old friend Unknown Person"!!! Please, Please, Please, report any work you do as in some cases, it is a long way to hike to some of these trees. This is true especially now that part of Hwy 536 is closed.

We received not 1 drop of rain at our house yesterday. However, looking up at the mountain, it looks like parts of it got a cloud burst. We sure hope so!

Take care out there everyone and thanks for all the reporting and work!

Sally Lowder
