North Sandia Fuels Reduction Project

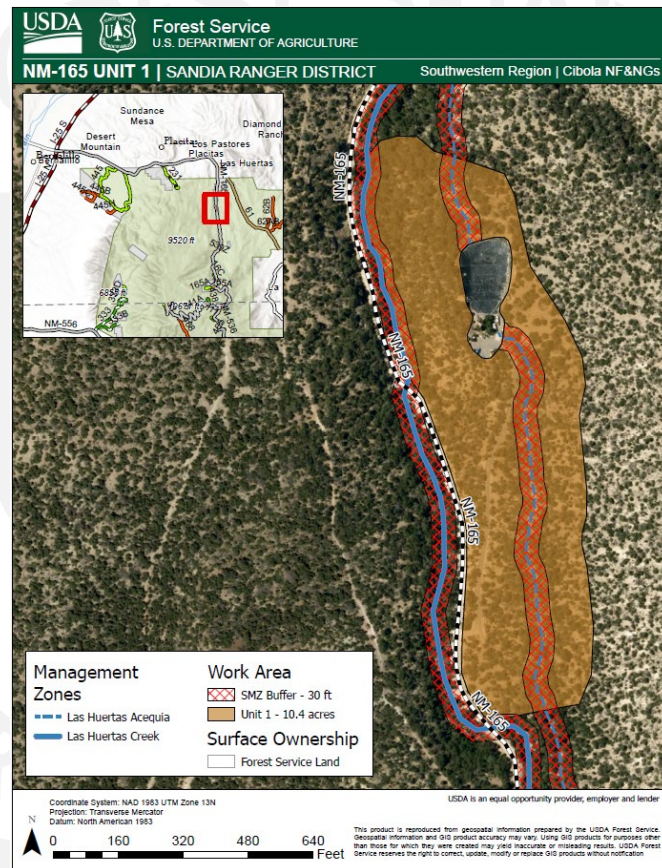

Las Huertas Canyon Fuels Reduction Updates

June 2026

Cibola National Forest and National Grasslands
Sandia Ranger District

Unit 1 – Progress to Date

- Total acres flagged for treatment: **10.4** acres of Pinyon-Juniper.
- Treated to date: **2.35** acres.
- Work completed by the Pueblo of Santa Ana crew. Work began in September 2025 under the Non-Funded Agreement.
- Fuelwood was removed via Free Use Letter to the San Antonio de Las Huertas Land Grant. Available as well to Tribal Free Use Collection Letters.
- To minimize bark beetle risk, work currently paused until Fall 2026.

CIBOLA NATIONAL FOREST

Implementation Update

ARTMENT OF AGRICULTURE

CIBOLA NATIONAL FOREST

Implementation Update

Unit 2

- 27 operational workdays completed
- Approximately 1,700 labor hours invested
- Average staffing of 6–8 personnel per day
- Haz tree/snag removal completed across the entire 1-mile Unit 2 corridor
- Dead and down material treatment and removal through chipping on approx. 0.1 mile (one side of NM 165)
- Chippable material has been processed; however, substantial volumes of chippable and non-chippable material remain onsite
